### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 08/27/09 has been entered.

### ***Election/Restrictions***

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

**Species 1**, including claims 37 and 38, relates to a first infrared signal receiver, and a control module communicatively coupled to the first infrared signal receiver, a receiver unit adapted to receive the radio frequency signal, the receiver unit including: a radio frequency signal receiver, and a first infrared signal transmitter, and a portable information communication device including: a second infrared signal transmitter, and a second infrared signal receiver, wherein: a first infrared signal, transmitted by the first infrared signal transmitter, conveys control information for the wireless microphone, the second infrared signal receiver receives the first infrared signal, a second infrared signal, transmitted by the second infrared signal transmitter, conveys the control

Art Unit: 2617

information for the wireless microphone, the first infrared signal receiver receives the second infrared signal, and the control module controls a function of the wireless microphone according to the control information received by the first infrared signal receiver.

**Species 2**, including claims 39 and 5-15, relates to a characterized in that the wireless microphone communication system further comprises a portable information communication device including a storage portion, the receiver transmits to the portable information communication device through the infrared interface at least one piece of information selected from the group consisting of: command information for commanding control of a function of the wireless microphone, request information for requesting the receiver to notify a setting state of the wireless microphone, and information regarding a type of a battery used in the transmitter of the wireless microphone, the portable information communication device stores in the storage portion the at least one piece of information received from the receiver through the infrared interface and transmits to the transmitter through the infrared interface the at least one piece of information stored in the storage portion, and the transmitter receives the at least one information from the portable communication device through the infrared interface.

3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, **no claims are generic**.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 2617

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

### ***Conclusion***

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to NGHI H. LY whose telephone number is (571)272-7911. The examiner can normally be reached on 9:30am-8:00pm Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dwayne Bost can be reached on (571) 272-7023. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
